Focused on The Engineered Environment

December 2012

Welcome to SOLUTIONS, a monthly newsletter provided by Jacco & Associates. Jacco's focus on system knowledge provides you with the engineering support and product solutions for your applications.

December Feature:

Versatec Base Water/Geothermal Heat Pumps

The Versatec Base provides a true value product to our commercial water source heat pump line. This product is engineered to offer high efficiency operation while maintaining a small cabinet footprint and an impressive list of value added features. With its compact design and ability to perform optimally in both water loop and geothermal applications, the Versatec Base is an ideal solution for both retrofit and new construction applications.

The Versatec Base model exceeds ASHRAE 90.1 efficiencies while utilizing environmentally friendly R410a refrigerant.

Key Features:

- Single Speed Recip Compressor
- 1" MERV 4 or 2" MERV 13 Filter
- Compact Footprint
- PSC or ECM Blower Motor
- Factory Controls with BACnet, LonWorks or N2 Compatibility

Perfect For Replacements!

AVAILABLE FROM 1/2 TON THROUGH 6 TONS!

December Question & Answer:

Question: What is the AHRI Entering Water Temperatures (F) For a Ground Loop Heat Pump(Cooling/Heating)?

A.) 86/68 B.) 59/50 C.) 77/32 D.) 85/21

Prize: Kindle Fire!

Last Month's Question & Answer Winner!

Question: At what percent humidity change does a person relate to a 1°F temperature change?

Answer: A.) 5. Congratulations To Jeremy Bowers For Winning A Digital Camera!
