

DVM Chiller - The Right Solution

Provides hot or cold water to applied, terminal, water source, or hybrid geothermal applications or hybrid geothermal solution

FEATURES INCLUDE:

EXPANDED CAPACITY

Modular design provides a combination of:

- Modules and expanded capacity from 10 to 240 tons in various ways to optimize space and save energy
- 10, 15 ton modules

ADVANCED PERFORMANCE AND ENERGY EFFICIENCY

- Delivers consistently higher performance and reduces wasted energy because of its BLDC inverter compressor with flash injection technology and evaporative condenser.

EASY INSTALLATION WITH SMALL FOOTPRINT

- Compact size reduces the time, cost, and effort to transport, move and install

CENTRALLY CONTROL ALL SYSTEMS

- Centrally manage both indoor and outdoor units with integrated control system

NIGHT SILENT MODE

- Provides 3 different noise reducing levels to reduce unit sound at night
