

As you may know, 2018 is Jacco's 50th year in business. To celebrate this milestone, we are sharing a monthly feature that highlights an aspect of Jacco's past, present or future plans for our company's continued client satisfaction and growth.

This month, we want to tell you, our customers, clients and friends, about one of the leading and largest product lines we represent: Samsung.

SAMSUNG

Throughout the years, Jacco has worked with a number of outstanding companies, able to represent a range of innovative products and oversee the processes of installation, management and repair. Offering Samsung residential and commercial products has allowed Jacco to provide advanced solutions to customers with unique, next-level advantages.

Fun Facts about Samsung

Since beginning as a small manufacturer of black & white televisions in 1969, Samsung Electronics has grown into one of the most recognized global brands and a technology leader across multiple categories. Samsung's mission is to "Inspire the World, Create the Future," and Jacco is proud to augment this goal by delivering Samsung's top-quality products to customers.

Some other fun facts about Samsung include:

- Beginning in 1974, Samsung began to produce cassette players, refrigerators, air conditioners and washing machines.
- In 2004, Samsung surpassed the \$10 billion mark in operating profit for the first time in history.
- Samsung was founded in 1969 and currently employs over 320,000 employees, in 73 different countries.
- Samsung Products with #1 market share:
 - Televisions
 - Mobile Phones
 - Smartphones
 - Memory (DRAM, NAND, SSD)
 - Display Drivers IC
 - SIM Card IC
 - Digital Signage
 - Refrigerators

Jacco's Favorite Samsung Job

When it came time for Lakeland Community College (LCC) to select the right VRF equipment, they looked to Jacco for guidance.

By using Samsung VRF equipment, LCC was able to achieve the efficiency gains to receive \$10.5 million in bonds from the Ohio Air Quality Development Authority (OAQDA) to fund the project. Along the Samsung equipment, Jacco provided numerous energy improvements, including coupling with a hybrid geothermal well field and triple pane glazing.

The LCC project was the largest Samsung geothermal VRF installation in the U.S. to date!

As a family-owned business for 50 years, Jacco can attribute our success in the HVAC industry to our representation of leading product lines like Samsung. We would like to thank all of our employees, customers and colleagues for making Jacco a leading representative in the HVAC industry for 50 great years. Cheers to many more!

Thank You to Our 50th Anniversary Sponsors!
