

Cleaner, Safer Air For Students And Staff

Trox Chilled Beam Displacement System's are designed specifically for school classrooms to remove respiratory pollutants and improve air quality while operating quietly to not inhibit the learning process. This results in, a healthier learning and working environment that is created for both students and staff.

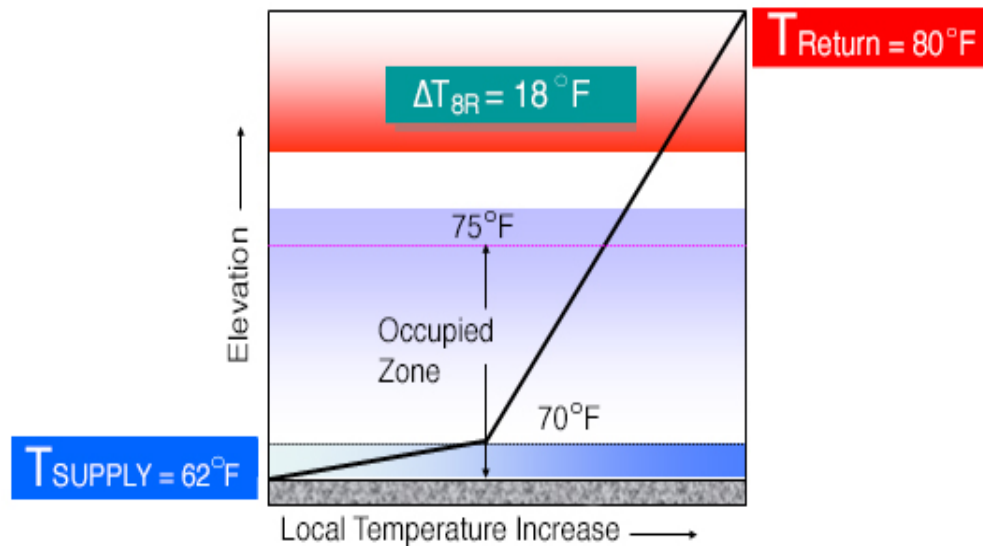

Benefits of Trox Chilled Beam Displacement System's:

- Excellent Classroom IAQ
- High CO₂ Removal Efficiencies
- NC 27 Space Acoustics
- Reduced Operation and Maintenance Costs
- Simplified Air Handling Unit Design and Operation
- Improved Energy Efficiency
- To read more on the system's benefits, [click here](#).

Chilled Beam Displacement ventilation creates a single vertical passage of fresh air through the breathing level, eliminating horizontal cross transmission of respiratory pollutants and associated contagious disease.

For more information on how Trox Displacement Systems could be the right solution for you, please contact Jerry Cohen at jerryc@jacco.com, or visit our website at www.jacco.com.

Last Chance To Sign Up! - January 14 Practical Psychrometrics Seminar

The Cleveland location is booked, but the Akron or Youngstown locations still have available spots. Don't miss your chance to earn TWO credit hours toward your CEU or PDH!

For more information on the seminars being offered or to sign-up, please contact Brenda Homjak at brendah@jacco.com, or visit our website at www.jacco.com.
