Mr. Kevin Teakell is the Senior Manager of Government/Industry Affairs and Product Strategy for AAON Inc., a manufacturer of packaged commercial HVAC equipment with facilities located in Tulsa, OK; Longview, TX; Parkville, KS and Redmond, OR.

Kevin has over 26 years of experience with AAON. He began as an Engineering Liaison to Manufacturing and shortly thereafter became the Engineering Manager for AAON's Applied Products. He led all Engineering functions for the Applied Products for 22 years. These functions included all aspects of product conceptualization and design, testing, applications and field troubleshooting for large commercial air conditioners, heat pumps, chillers, air handlers and pumping systems. Kevin was also the Director of Marketing and New Product Development for four years.
